

Medication Storage Instructions

Frozen Medication

Keep this medication in the freezer and out of the reach of children. Remove from the freezer approximately 2 hours prior to use and place on a clean, cool, and shaded surface. **DO NOT HEAT.**

Refrigerated Medication

Keep your medication in the refrigerator and out of reach of children. Remove from their refrigerator approximately 1 hour prior to use. Place in a clean, cool, and shaded surface. **DO NOT HEAT.** Keep temperature range between 34-45 degrees Fahrenheit.

Room Temperature

Keep your medication at room temperature. Store your medication in a clean, cool, and shaded location. Keep out of reach of children. Do not refrigerate, freeze, or heat this medication unless otherwise instructed.

Please contact the pharmacy if you have any questions

All used syringes without needles may be placed in your regular trash can.

DO

- Place needles and objects with sharp edges pointing downward into the red “sharps container”.
- Call Advanced Home Care to replace the “sharps container” when 2/3 full. Dispose of the “sharps container” in the regular trash when full. Make sure lid is completely closed.
- Store your chemotherapy waste container in a low traffic area in your home. Call Advanced Home Care to replace and pick up the container when 2/3 full. The chemotherapy container must be picked up and disposed of by the Advanced Home Care staff.

DO NOT

- Recap needles or sharp objects.
- Push or force needles and sharp objects into the “sharps container”.
- Place “sharps container” in "high traffic" areas.
